

Problem1: QuizApp

Basic Layout

1. What phrase means that the compiler validates types while compiling?.

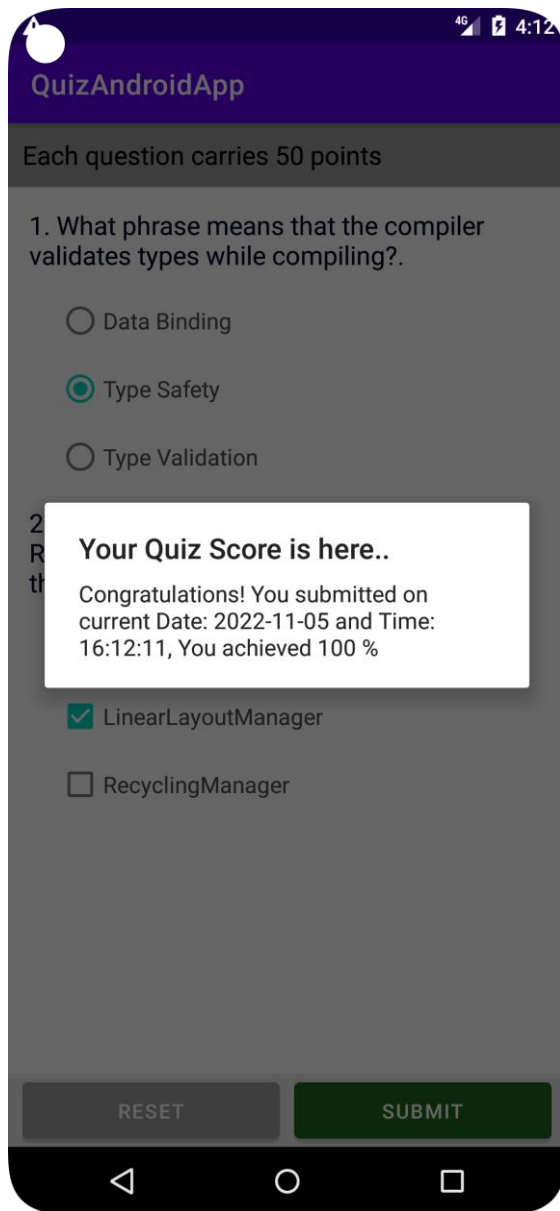

- ☐ Data Binding
- ☐ Type Safety
- ☐ Type Validation

2. Which of the following are Android RecyclerView layout managers? Select all that apply.

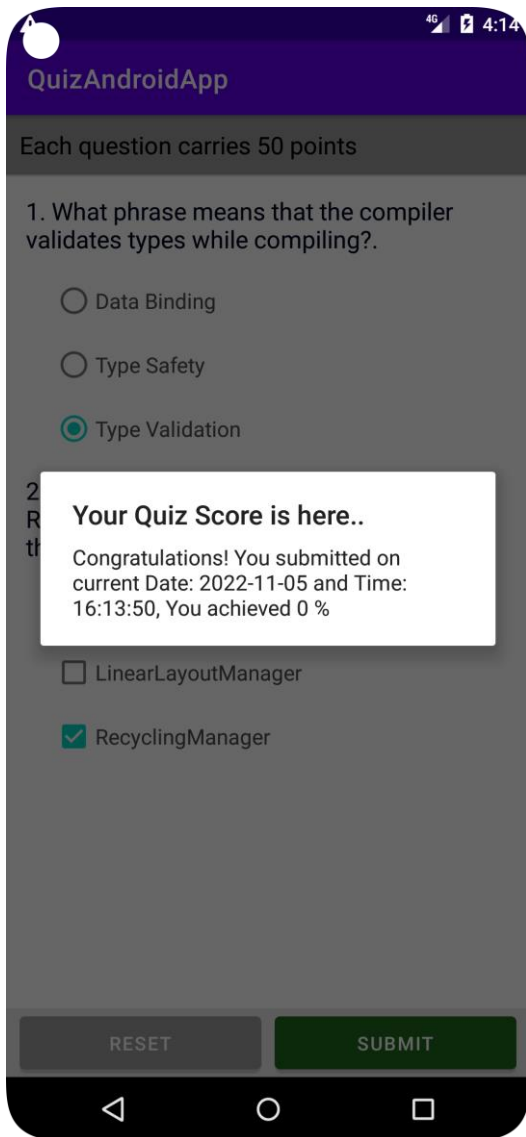

- ☐ GridLayoutManager
- ☐ LinearLayoutManager
- ☐ RecyclingManager

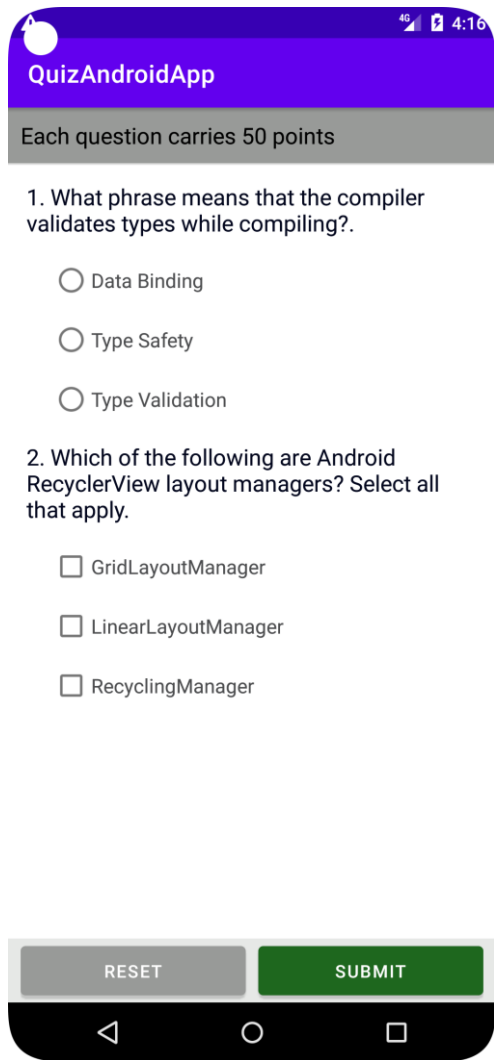

When correct answer is chosen

When incorrect answer is chosen

When reset button is clicked

The screenshot shows a mobile application interface for a quiz. At the top, there is a purple header bar with a white circular icon on the left and the text "QuizAndroidApp" in white. Below the header, a grey bar contains the text "Each question carries 50 points". The main content area is white and contains two questions. Question 1 is a multiple-choice question with three options: "Data Binding", "Type Safety", and "Type Validation". Question 2 is a multiple-select question with three options: "GridLayoutManager", "LinearLayoutManager", and "RecyclingManager". At the bottom of the screen, there is a grey bar containing two buttons: a grey "RESET" button and a green "SUBMIT" button. Below the buttons is a black bar with three white icons: a back arrow, a circle, and a square.
